

Be a Whistle Blower: Help save humanity!

If you are a member of the U.S. military, a contractor, a corporate employee or government functionary and you know of any malfeasance, corruption, falsehood, illegal act or critical information for the functioning of democracy, you have the power to blow the whistle. There are whistle blower protection laws to rely on and even rewards in some cases.

Daniel Ellsberg was a Pentagon war planner who could not live with himself by withholding information about the Vietnam War. He took a risk and revealed the Pentagon Papers to the press, resulting in massive outrage about government deception. It was the tipping point which brought about the end of the war.

Julian Assange and Sgt. Bradley Manning of Wikileaks are also facing charges of leaking information vital for a functioning democracy in time of illegal wars. They are considered by many to be heroes and history will probably absolve them.

You too can be on the right side of history by revealing such information, either anonymously or not, about 9/11 or the conduct of current wars. For whistle blower protection, go to this website:
